

B Sure[®]

**BE SO SURE OF CORN
AND SOYBEAN SUCCESS
YOU CAN SEE IT.**

AGRINOS IS A BIOLOGICAL CROP INPUT PROVIDER COMMITTED TO IMPROVING
THE PRODUCTIVITY AND SUSTAINABILITY OF MODERN AGRICULTURE.

 **Agrinos[®]**

B SURE. BECAUSE FASTER RECOVERY FROM POST-EMERGENT APPLICATIONS HAS ITS REWARDS.

Research-proven B Sure® speeds up plant recovery from the stress associated with post-herbicide applications. By incorporating B Sure in your program, you can expect:

HIGHER YIELDS	VISIBLE VITALITY
CONSISTENT RESULTS	RELIABLE RETURN ON INVESTMENT

B Sure is easy to mix and requires no special trips. It can be mixed with micronutrients, foliar fertilizers, herbicides or fungicides and is now approved for tank mixing with Engenia® and XtendiMax® herbicides.

B Sure is a foliar applied liquid biostimulant that increases the activity of important metabolic and photosynthetic pathways in the crop. The nutrients found in B Sure including carbon, nitrogen, true protein and free amino acids are essential to plant development and are known to:

- Improve natural plant processes that lead to greater productivity
- Support plant health and vigor during critical stages
- Stimulate root growth

SOYBEANS

WHAT THEY'RE SAYING ABOUT B SURE.

“ We used B Sure on 2,000 acres of soybeans as a foliar with our fungicide and the beans seemed to hold more pods and green up really well.

KIRK KIMBALL, LKK FARMS
CHILLICOTHE, ILLINOIS

“ I was shocked at the difference B Sure made when I used it on my soybeans because there was almost no burn. One pass is perfect for me. It's great to be able to tank-mix and not have to run over the crop again. And at the end of the year, we saw an advantage of at least 3-5 bushels.

STEVE COCHRAN,
COCHRAN FARMS
ADEL, IOWA

“ We use data to make the best recommendations possible and our data shows that B Sure is a great investment. We've been seeing a 3 to 10 bushel advantage on soybeans.

GREG REISZ, E4 CROP INTELLIGENCE
WOODBINE, IOWA

A COMMITMENT TO FINDING THE BEST BIOLOGICAL SOLUTIONS—AND HELPING YOU SUCCEED.

We believe in delivering field-ready products with real-world benefits.

And we're 100 percent committed to identifying, developing and providing solutions that will help you succeed like nothing else can.
